

List of Best Student Paper Awards

Paper code	Surname	First name	Position	Mark	Affiliations	Sessions/ Author order	Paper Title
Paper no. 134	WANG	Shuang	Research Student	5	Central South University	PS-6-3/ 1st author	Numerical simulation of particle flow for high velocity compaction based on discrete element method
Paper no. 318	ZHANG	Zhongqiang	PhD Student	5	Dalian University of Technology	MS-3-1/ 1st author	Gas separation by kinked single-walled carbon nanotubes
Paper no. 415	TANG	Xuhai	Student	5	Sichuan University	MS-16-2/ 1st author	A novel polygonal finite element method: virtual node method
Paper no. 474	YANG	Qingyuan	PhD Student	5	Sichuan University/City University of Hong Kong	PS 6-1/ 1st author	3D Numerical simulation of flow structure in confluence river
Paper no. 262	GUO	Liuwei	PhD Student	5	University of Science and Technology of China	PS 11-2/ 1st author	Bending response of sandwiched double tube structures with aluminum foam core
Paper no. 368	FAN	Jie	PhD Student	5	City University of Hong Kong	MS-1/ 1st author	Analysis of mode III elastodynamic cracked plane using fractal two-level finite element method
